

Bovine Appeasing Substance

For topical use in cattle of all ages to promote optimal performance by mitigating effects of stress.

ACTIVE INGREDIENT:

1% Bovine Appeasing Substance

INDICATIONS

SecureCattle® creates an appeasing effect with the animal to optimize their performance even through periods of stress such as: handling/processing; transportation; weaning; dehorning; castration; commingling and aggression; calving; dry-off; breeding; milking; and treatment/vaccination.

DURATION OF EFFECTIVENESS

Studies have demonstrated SecureCattle® creates positive effects in cattle up to 45 days.

WITHDRAWAL PERIOD

Neither a pre-slaughter withdrawal interval nor a milk discard time is required when product is used according to label directions.

INSTRUCTIONS FOR USE:

For all cattle, apply a single 5 mL dose of SecureCattle®. Shake well before using and then remove cap. Attach the pre-calibrated 5 mL dosing applicator. Spray 5 mL of solution, 4-6 hours before the stressful event. Apply the entire 5 mL dose to the animal on the top of their neck in a single location between the poll and withers (nuchal skin area). Apply every 14 days from birth to weaning.

1 Shake well before using and then remove the cap.

2 Attach the pre-calibrated 5 mL dosing applicator.

3 Apply the entire 5 mL dose to the animal on the top of their neck in a single location between the poll and withers (nuchal skin area).

PRECAUTIONS

For animal use only. Not for human use. Avoid contact with eyes.
Keep out of reach of children.

STORAGE

Store in a dry location at 50° - 86°F.
DO NOT REFRIGERATE OR FREEZE.
